WEEKEND WORKSHOP

Creating Your Shaman's Staff

May 6th and 7th

10.00am – 4.00pm

£120

A Shaman's staff is often a thing of beauty, used by a shaman to assist in physical hiking, as well as being one of the many tools of their trade, for spirit journeys as well as for protection.

For many peoples, the shaman's staff is a representation of the connection between the realms of upper, middle and lower worlds and functions as a model of the World Tree. As with all true power objects, the staff becomes a living presence. As such, it is a catalyst for change and transformation--even capable of working on its own on behalf of the shaman.

This weekend workshop will focus upon the creation (making), dedication and use of a Shamanic Staff.

At the time of writing we are planning to have a Teepee in the back garden of the venue so to create the appropriate ceremonial atmosphere for the work with your staff.

You can bring your own wooden pole/stick to work with and indeed any personal items you would like to add to your creation.

However Wendy will also provide blank staffs for you to work with and make your own as well as a range of natural items you can add to your staff.

Pre-Workshop Preparation

In the time leading up to the workshop take the time to be still and think about this amazing tool. Reflect on symbols and totems that are relevant or important to you. Jot everything down in your note book/ journal to bring with you.
